EDUCATION

2024 – 2028
COMSATS UNIVERSITY
ISLAMABAD, SAHIWAL
CAMPUS

- BS Software Engineering
- CGPA: 3.6 / 4.0 (5th Semester)

2021 – 2023
INTERMEDIATE – ICS

- Computer Science Stream
- Grade : A

SKILLS

- Flutter Development
- Python Backend
- Mobile App Development
- REST APIs
- Firebase / Supabase
- Object-Oriented Programming
- Data Structures & Algorithms
- Git & GitHub
- AI-Assisted Development
- Problem Solving

LANGUAGES

- Urdu (Native)
- English (Professional)
- Punjabi (Native)

PROFILE

Software Engineering student at COMSATS University Islamabad (Sahiwal Campus) specializing in Mobile App Development with Flutter and Python backend engineering. Experienced in building real-world AI-powered applications, management systems, and full-stack mobile apps. Strong problem-solving mindset with focus on clean architecture and scalable systems. Actively seeking a Mobile App Development Internship.

PROJECTS

MovieAgent — Featured Project

Flutter + Python + Supabase | Full-Stack AI Mobile App

- Built a full-stack AI-powered movie application using Flutter for cross-platform mobile UI and Python for backend logic.
- Integrated Supabase for real-time database and authentication.
- Implemented AI-driven intelligent movie recommendations and personalized user experience.

FITPOSE AI

Python | Computer Vision | AI/ML Application

- Developed AI-based exercise posture detection using Python and Computer Vision.
- Real-time posture analysis to help users maintain proper form during workouts.
- Applied OpenCV and ML techniques to process live video input and provide instant corrective feedback.

Muzaamil Mart + Other Projects

E-Commerce Web | Java GUI | DSA Terminal | Networks

- Muzaamil Mart: Real-world e-commerce web system with product management.
- University Management System (Java GUI): OOP-based desktop app with full GUI.
- DSA Management System: Terminal app demonstrating strong Data Structures & Algorithms.
